DREDGING

1. All proposed dredging below elevation 448 within the Lake Athens impounded area, owned and operated by the Athens Municipal Water Authority (AMWA) shall be approved by the Department of the Army Corps of Engineers.
<http://www.swf.usace.army.mil/Missions/Regulatory/Permitting/ApplicationSubmittalForms.aspx>
2. The Corp of Engineers shall determine if the proposed activity will qualify under Nation Wide Permits for Minor Dredging. (Copies of Corp application and determination letter shall be supplied to the Lake Inspector.)
3. The Lake Inspector will review Corp of Engineers response for correct action. The Inspector will either:
 - A. Issue an AMWA permit for the proposed activity, or
 - B. Require an Individual Permit issued by the Corp of Engineers and the AMWA's Board of approval.
4. To obtain AMWA's approval, the Corp of Engineers issued Individual Permit shall be supplied to the Lake Inspector and the proposed activity will be placed on the next Board meeting agenda for consideration.
